7. Narrative Description (historic and current condition of the property).

The Jinapsan *Hotnu* is located on the sand flat within the boundaries of the Jinapsan Site (66-08-0014). The Jinapsan site was placed on the Guam Inventory July 1974 and on the National Register of Historic Places December 1974. Now it is proposed to include the oven in the Multiple Property Listing of Guam's *Hotnu*. The oven is situated about -m south of the high tide line in the Santiago de Castro Estate located at Jinapsan on Guam's northern coast. The oven stands alone. Nearby vegetation includes coconut palms (*Cocus nucifera*), lada (*Morinda citrifolia*), grasses, ferns, vines and weeds.

The date of the oven's construction is not known for certain. According to information on the inventory form on file at the Guam Historic Preservation Office, the oven was built by Santiago de Castro, born in 1855. The form states that the oven was built about 1870, but that may be too early since Santiago would have been just 15 years old by that date. It is likely that it was built between 1880 and 1910. It was built for the extended family's use.
